Gourmet Quality Fresh Food

Made In Our Kitchens

Produced in our very own State-of-the-Art Culinary Center everyday, our line of Bistro to Go sandwiches, salads, entrées, and snacks will appeal to anybody looking for delicious options.

We use the freshest, top quality ingredients in all of our Bistro to Go menu items. Our menu analysts will make sure that we stock only the best selling items at your location.

FRESH SALADS

Our salads use the freshest ingredients to create flavorful combinations that are as tasty as they are eye-appealing

PREMIUM SANDWICHES

Using high quality meats and artisan breads, our premium sandwiches are prepared fresh everyday

CHEF INSPIRED MEALS

Our talented culinary team works tirelessly to craft meal recipes and unique small snacks

High Efficiency Distribution

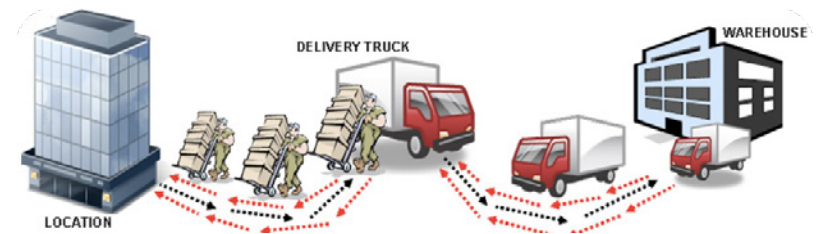

We utilize an advanced pick-to-light warehouse system, simplifying and streamlining our order fulfillment process by directing our warehouse personnel what item to pick and how many by using light signals.

Gone are the days of filling machines and markets based on what is in a route merchandiser's delivery vehicle. All machines and markets communicate with our warehouse to let us know **WHAT has sold**, and **HOW MANY**. These items are then pre-picked in the warehouse and then merchandised at our markets and machines, virtually eliminating out of stock products.

Old Vending Model

- Multiple trips
- More trucks on the road
- Out-of-stocks
- Out of date products
- No cashless solution
- Questionable reporting

Servomation's Model

- Increased efficiency
- Reduction in carbon footprint
- Remote detailed reporting
- Cashless payment
- Fewer out of stocks
- Fresh products
- 100% Financial transparency
- Controlled merchandising
- Product analytics

Workplace Health & Wellness

The Right Choice for a Healthier You

The Right Choice For A Healthier You™ is the workplace nutrition education program of Servomation designed to help you live a healthier lifestyle by making smart food choices, and to inform you about the ongoing efforts to balance and enhance nutrition in the food and beverage products we offer.

The program has developed dietary guidelines and a listing of food, snack, and beverage products available as well as products that meet the specific dietary guidelines. We are excited to offer this program, which coincides with the direction and focus of the leading medical health agencies' recommendations toward better eating for prevention of chronic illnesses such as heart disease, diabetes, obesity, and hypertension.

The Right Choice For A Healthier You™ program can be implemented within our vending services, Micro Markets, and food service solutions.
